Sa svojim raznolikim asortimanom proizvoda od kemijskih olovki, gel olovki, olovki na uvlačenje i ostali pribor kao što su markeri, LINC je obilježio globalnu prisutnost u više od 60 zemalja.

Pentonic, rođen je lansiranjem kuglične kemijske olovke 0,7 mm u svibnju 2017. Nakon uspješnog lansiranja kemijske olovke postupno smo se proširili i ušli u druge kategorije.

Konvergencija vrhunske tehnologije i vrhunske estetike dizajna, Pentonic je o obliku kako i funkcionalnosti.

Pentonic je vođen kulturom u kojoj inovacija i estetika idu ruku pod ruku. S maštom u srcu svega što radi, Pentonic je strastven oko svakog pojedinog detalja i moderan u svim svojim obrisima.
